

## Title One Corner

---

It is good to be back on a regular school schedule and to be a bit warmer as well. Students are settling into the school routine and are working hard to complete benchmark assessments. As we look at the results some students will move in and out of the Title program. Report cards will be distributed by mid-February. If you'd like to discuss your child's assessment results, please call or email me to set up a meeting.

Thank you to so many of you who have donated gently used children's books. The students absolutely LOVE to get their free book on Fridays. In particular, we need more Kindergarten and first grade books. Think about if your child still reads them and consider donating to our Title program. Keep in mind we still have **We Both Read** books available in the library for parent/guardian checkout (shelved behind the library checkout desk) for readers at kindergarten through second grade. These books are a great way to sharing reading with your children.

I've learned of some resources that you may want to explore and try with your children. There is also additional information in the front office.

- **River Road/El Camino del Rio Produce Plus Program.** The Family Resource Center has partnered with Food for Lane County to offer free fruits and vegetables once a month to families. Pick up is at **River Road Elementary (120 Hilliard Lane) cafeteria from 3:00-5:30 PM** on the dates below. Please bring your own box or bag. The remaining dates are: **February 17, March 17, April 21, May 19, and June 2.**

- **LaneKids.org** is an on-line resource for families including a calendar of community events for children, articles on parenting, tips and activities, recipes, and parent education.

- **www.colorincolorado.org** is a resource developed for English Language Learners but applies to all learners. It has practical, research-based information and tips to help your children succeed.

- **joinvroom.org** is a website that focuses on Brain Building Basics for young children. You can download an app and receive daily brain building activities for multiple children.

- **Ready4K** is a research-based text-messaging program for parents. Focused on children ages 3 to 5, it provides families with fun facts and easy tips to boost your child's learning. Please contact me or the office for specific text codes for different ages.

Please remember to mark your calendars for our annual **Duck Into a Book** event that will be Thursday, March 2nd from 6-7 PM. This is a wonderful Spring Creek tradition. Not only do students meet University of Oregon athletes and learn about college but they also get to meet the UO Duck Mascot.

Please continue to encourage your children to read and feel free to use me as a resource for questions and materials. You can contact me by calling Spring Creek at 541-790-4801 or [mitchell@4j.lane.edu](mailto:mitchell@4j.lane.edu).
